## **INTRO: VASUDHAIVA KUTUMBAKAM**

\* What the world needs, what the world needs  
Peace, peace, peace!  
The world as one, the world as one  
We gotta know ourselves, we gotta know ourselves  
Can we realize that we are all the same  
Can we realize we are humanity, we are one family  
We are one family with just one goal,  
oh we gotta rebuild this world as a lovely home for all  
We are one family and here's my prayer  
Oh lord, let us realize that we're all the same  
Finden wir Frieden in uns selbst  
Und tragen ihn raus in uns're Welt  
Ob Frau oder Mann, ob schwarz, ob weiß,  
als Seelen sind wir alle gleich.  
Vasudhaiva kutumbakam  
What the world needs, one day the world shall have.

## **BIRTHDAY SONG**

\* You cannot measure to what extent  
Your life is precious, my beautiful friend  
Celebrate this day not only today  
Remember every day for what purpose you came  
Being born at this time, in this age  
When humanity's shaken awake  
Be a part of the creation of this world as a peaceful place  
This is your birthday, what a lucky day  
This is your birthday, what a blessed day  
Thank both of your parents for the body they gave you  
And for doing the best that they were able to do  
Now take care of yourself, my dear child  
And don't miss a single second in life  
Let it be a celebration of being newborn ev'ry day  
Ev'ry day is birthday-day  
Ev'ry day is newborn day  
Ev'ry day is your birthday  
This is your birthday, what a lucky day  
This is your birthday, what a blessed day  
What a lucky day, what a blessed day, what a lucky day!

## **NAVKAR MANTRA**

\* Om namo arihantanam

Om namo siddhanam

Om namo ayariyanam

Om namo uvajjayanam

Namo loe savva sahanam

Eso pancheh namo karo

Savva pavva pana sayo

Mangalanam cha savve simm

Padhamam havai mangalam

I bow to the perfected ones

I bow to the liberated ones

I bow to all ascended teachers

I bow to all the saints

Sins and obstacles shall be destroyed

That's why I keep on singing incessantly

Navkar's auspicious melody

Om namo arihantanam...

Ich verneige mich vor den Befreiten, ich verneige mich vor den

Vollkomm'nen, ich verneige mich vor höchsten Lehrern, ich verneige mich

vor allen Heil'gen. Höchster Schutz und Segen ist in diesem Lied zugegen.

## **HOLY SOUL**

\* I am a holy soul

I am a pure soul

I am connecting to the spirit of all enlightened beings

Collectivity, raise me up

fill my heart with ease, sweet Himalayas

I am a holy soul

I am a pure soul

A nothingness that noone can describe

a deep, deep rest fulfilling me from inside

I never touched upon something like this before

this energy is strenghtening my inner core

And so I can live life in peace, live life in peace

I can be loving and giving and loving

being in service to the Divine, in service to the Divine

I can share and give what I have received

I am a holy soul

I am a pure soul

## **INVITE THE CHILDREN**

\* New lifes are born into this world  
How do we wanna embrace  
These new lifes that come only through grace  
Let us create an empire for the beautiful children to rise  
Invite the children, they shall be welcome  
Invite the children, they shall be loved  
From the very first time  
The ones who descend into this world  
Their mission is sacred and pure  
With new eyes they gaze in wonder and bring  
Goodness and true innocence  
Into the darkness of man  
Invite the children, they shall be welcome  
Invite the children, they shall be loved  
From the very first time  
It is our children who will save the world  
Our contribution is to hail their souls  
Forthcoming saviours they follow our call  
If we are worthy to serve them with love

## **TOUCH DOWN**

To fill you up with deepest joy and ease  
Drink deeply, as you can, the source is cravin'  
To have you back in ist embrace

To fill you up with freshness and pure love  
Drink deeply, as you can, the source is cravin'

## **PRAYER TO THE ELEMENTS**

\* Mother earth, I call, to clean my body mind and soul  
Hold me with your loving arms  
Mother earth, I call you, standing on your holy ground  
Hold me close and stabilize my mind  
Oh mother, cleanse me from within  
And let there be a river  
I'm prayin' to the sun, prayin' to the fire  
Burn away the obstacles  
Oh Sun God I call you, let thy holy flames  
Purify and clear my mind  
May you erase my faults and fears  
All anxiety and tears  
And let there be a river with tears of joy  
I'm prayin to the sea, prayin' to the water  
Wash away what hinders me  
Oh waters shower me with grace  
Cool me down in your embrace  
And let there be a river, a river with tears of joy  
I'm prayin' to the wind  
Prayin' to the breeze  
Caress me with your gentleness  
Prayin' to the storms  
Come with thunder and lightning  
Your howling may chase off the fears  
I'm prayin' to the sky  
Prayin' to the open wide  
Empty me, leave nothing behind  
Oh vastness carry me away  
And let there be a river  
Let there be a river with tears of joy  
Let there be a river mergin' in the sea, let it be me
